

Mercedes AMG 63 Performance Air Intake System

For Mercedes AMG models fitted with the supercharged 63 engine

Improving on AMG's elegant & powerful 6.3L V8 engine is not an easy task. The Carbonio performance air intake system for the Mercedes-Benz AMG 63 engine is made from beautifully finished carbon fiber and offers an increase in both engine power and torque. Our carbon fiber airboxes keep in line with the factory styling while increasing internal volume. This increase smoothens power delivery and sharpens throttle response. Our intake system is an excellent upgrade to any Mercedes-Benz outfitted with an AMG 6.3L engine and an essential upgrade for any Mercedes-Benz with exhaust and or software upgrades.

FEATURES:

- Substantial increase in airbox volume compared to factory components
- Autoclaved pre-preg carbon fiber construction, clear coated with automotive urethane and hand polished to a mirror finish
- OEM perfect fit
- Maintains all factory emissions components
- Installs in less than 10 minutes

PERFORMANCE:

- Power increase: 18-21hp
- Torque increase: 14-18lb/ft

APPLICATIONS:

- All 2007+ Mercedes AMG 63 models (including Black Series) with non-turbo engine with the following designation: C63, E63, CL63, CLS63, S63, SL63, ML63, R63
